awareness month

Immunization Awareness

National Immunization Awareness Month (NIAM) is an annual observance held in August to highlight the importance of vaccination for people of all ages.

It is important to get recommended vaccines throughout your life. You have the power to protect yourself and your family against serious diseases like whooping cough, cancers caused by HPV, and pneumonia with vaccines.

During NIAM, The Balm In Gilead, Inc. encourages you talk to your doctor, nurse, or other healthcare professional to ensure you and your family members are up to date on recommended vaccines.

We also encourage you to visit CDC's [Interactive Vaccine Guide](#), which provides vaccination information covering childhood to adulthood.
